Subject: Home Warranty

Just wanted to let you know how great the home warranty coverage has been for us. We have three policies; one on our home and one each on two investment properties. Since we purchased them two years ago, we have saved several thousands of dollars. We had the AC coil replaced at a cost of \$2700, two gas hot water heaters at \$850 each, dishwasher at \$400, and a well pump at \$1250. What a savings! It sure is worth it. Thank you for suggesting it Joan!
